

HOW TO GET TO HOTEL RURAL LA PUEBLA BY CAR

Step 1: Entrance to the village

Drive up through the only access road (next to the bus shelter). You'll see a restricted access sign: you can pass for loading and unloading. Continue cautiously until you reach the stream.

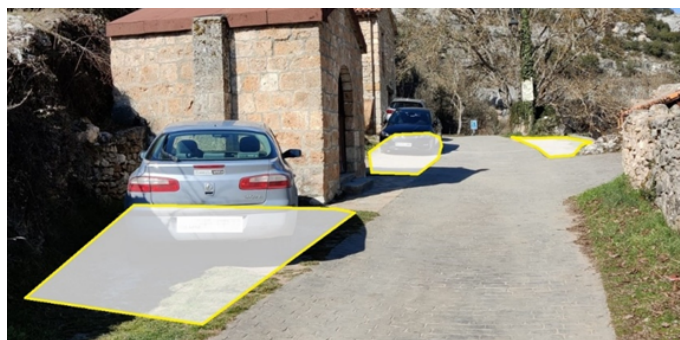

Step 2: Narrow street and stream crossing

Before getting to the stream, take the narrow street on the right. Fold in your mirrors if necessary: **even large vehicles can pass**. When you exit, turn left and cross the bridge.

Step 3: Ascent via "La Cuesta"

Drive up "La Cuesta" street to the very end. Avoid stopping halfway up.

Step 4: Parking at the top and pedestrian access

Yellow zones: places where there is usually space to park the car.

Purple arrow: go down on foot towards the hotel.

Blue arrow: continue to find a point where you can maneuver and turn around (behind the water tank).

IMPORTANT

- At the entrance to the village there is a '**No entry**' sign (except residents and authorised vehicles). As guests, you may enter **only to load/unload luggage**.
- Do not park in the town centre, in front of doors, or blocking any street.
- **Narrow streets and steep hills:** drive slowly and carefully (in some vehicles you have to fold in the mirrors).

If you prefer to avoid the town center

You can leave your car in the outdoor parking areas and walk up at your leisure. (Walking time: estimated 8-12 minutes, depending on your fitness and luggage.) If you need assistance, please call reception and we will guide you.

Frequently Asked Questions

Can I leave my car parked somewhere within the town?

Recommendation: If you can find space at the top of "La Cuesta" (Step 4), it's usually the most practical spot, as long as you don't block access or the public road. Otherwise, leave your car outside the town center.

How do I turn the car around?

Follow the path that continues at the end of "La Cuesta". About 25 meters ahead you'll see a water tank: there's usually enough space to reverse right behind it. Reverse there and don't go any further, because the mountain track starts from that point.

Which way do I get back to the road?

Through the same place you entered: the town has only one vehicle entrance/exit.

What happens if I encounter another vehicle head-on?

One of the two vehicles must either reverse or move forward until a point where it's possible to yield. Patience: this is normal on narrow streets.

What if the GPS suggests another entrance?

In Orbaneja del Castillo there is only one vehicle access to the town center: the street next to the bus shelter (Step 1).
